

ÁRVÁLTOZÁS

2023. április 1.-től az Aura Soma Products Limited, az Aura-Soma termékek kizárólagos előállítója és forgalmazója 11 %-os áremelést jelentett be.

„We are doing all we can to mitigate the huge rises in energy costs we face, both directly (we use as much solar as is possible in the UK to power our production & Farm), and indirectly, by forward planning with our partners as far as we possibly can....

... the average national inflation figure we have since the last price rise in March 2022 is 11%, which is what we will use to amend the prices. This is an average - unfortunately for us, most of our costs have risen well above this level, especially our core costs such as glass, Pomander and Quintessence bottles, the essential oils and vegetable squalene. „

Az import árakban megjelenő árváltozást kénytelenek vagyunk a Szín-Hely áraiban is érvényesíteni. Ennek megfelelően 2023. április elsejétől az Aura-Soma termékek ára 11 %-kal emelkedni fog.
